(Input) (Process) (Output) ...

1) Input

Input is the starting point of the process, representing the initial conditions or resources available for the system.

2) process

The process is the mechanism by which the input is transformed into the output, involving various internal operations and interactions.

3) Output

Output is the result of the process, representing the final products or services generated by the system.

6. Input-Process-Output Model

1) Input

Input is the starting point of the process, representing the initial conditions or resources available for the system.

2) process

The process is the mechanism by which the input is transformed into the output, involving various internal operations and interactions.

3) Output

Output is the result of the process, representing the final products or services generated by the system.

The input-process-output model is a fundamental concept in systems thinking, used to analyze and design various systems.

7. Input-Process-Output Model

The input-process-output model is a fundamental concept in systems thinking, used to analyze and design various systems.

The input-process-output model is a fundamental concept in systems thinking, used to analyze and design various systems.

The input-process-output model is a fundamental concept in systems thinking, used to analyze and design various systems.

7.1 Input

Input is the starting point of the process, representing the initial conditions or resources available for the system.

The input-process-output model is a fundamental concept in systems thinking, used to analyze and design various systems.

Answer the following questions

7.2 Explain the role of the International Human Rights Law in the protection of human rights.

7.3 Describe the different types of human rights violations.

7.4 What is content analysis?

(Content analysis)

7.5 Explain the role of the International Human Rights Law in the protection of human rights.

7.5 Explain the role of the International Human Rights Law in the protection of human rights.

7.5 Explain the role of the International Human Rights Law in the protection of human rights.

Answer the following questions

Question	Answer (2554-2555)	Question	Answer

1. Question	√	√	√
